*To whom it may concern*

**Eng. Mohamed Almarzooqi, BSc, MSc, FCI Arb**

I have known Eng. Mohamed Almarzooqi for over five years through a number of arbitration cases that I had the pleasure of serving with him in the same arbitration tribunals. The arbitration cases I worked with Eng. Almarzooqi concerned international disputes which were governed by arbitration rules of major arbitration institutions. Our arbitrations arose out of major infrastructure projects and involved complex procedural, substantive and technical issues.

In dealing with these complex matters, Eng. Almarzooqi impressed me with his ability to decide matters in an impartial as well as rigorous manner. Drawing on his extensive technical knowledge and substantial experience in construction and engineering disputes, he was able to understand both the legal and commercial implications of the dispute before us.

Importantly, Eng. Almarzooqi demonstrated a remarkable work ethos and strong commitment to ethical conduct.

Overall, it has been a real pleasure to have worked with him and I will look forward to having the opportunity of collaborating again in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Stavros Brekoulakis'.
