To Whom It May Concern,

I have known Mohamed Almarzooqi for many years as we work in the same arbitration market, both based in Dubai. I have sat as an arbitrator with Mohamed and been involved in numerous arbitration related activities/events.

Based on my experience Mohamed is a thoroughly professional and personable practitioner, who is confident, pragmatic and hardworking, and is always willing to listen and debate issues to their natural conclusion. His training as an engineer is an asset as is his knowledge of the local laws and judiciary systems.

I have no hesitation in recommending Mohamed.
